MASSAGES

Our highly trained therapists are committed to excellence, infused with enthusiasm and take pride in delivering personalised, dedicated service. Our treatments combine both traditional and contemporary techniques, while our product partners are expertly researched to ensure you benefit from the highest levels of efficacy.

CLASSICAL

50/80 minutes

A personalised massage that focuses on relieving aching muscles, relaxing tightened joints and releasing stress. Techniques are drawn from Swedish massage modalities combined with gentle stretching and joint release bodywork for an effective massage that will relax and revive.

AROMATHERAPY

50/80 minutes

An ancient holistic treatment that draws on the power of essential oils to balance your body and mind, whilst restoring your wellbeing. Pressure points on the face are stimulated, and light and extended massage strokes are used to induce a state of deep physical relaxation.

ORIENTAL

80 minutes

Harmonious combinations of Eastern and Western massage techniques. The therapist performs a pressure point release ritual along the body, coupled with gentle Thai massage stretches. These techniques open the meridians, allowing energy to flow freely, releasing tension and restoring vitality.

THAI

80 minutes

An ancient form of healing massage that uses pressure point stimulation along the meridians and stretching techniques to release blocked energy and ease muscular tension. Thai massage improves blood circulation and flexibility while restoring health and vitality.

REFLEXOLOGY

30 minutes

Focusing specifically on the feet, this treatment involves manipulation of specific reflex points, which stimulate the body's self-healing process while promoting relaxation and reducing muscular stress.

HOT STONE

80 minutes

A powerful combination of the healing properties of hot stones used on major muscle groups, together with deep tissue massage restoring physical balance and wellbeing. Heat from the stones relaxes sore muscles, allowing the therapist to focus on relieving deep-seated tension through isolated bodywork.

DEEP TISSUE

80 minutes

An intense, restorative treatment specifically designed for tight, stressed and aching muscles. Deep tissue and cross muscle fibre techniques are combined with stretching and drainage movements actively engaging the deeper layers of the muscular tissue.

FOOT RELIEF

50 minutes

A combination of Thai stretches and foot reflexology massage is followed by a cleansing mask. A perfect way to treat tired and sore feet, leaving them soothed and re-energised.

HAMMAM RITUAL

80 minutes

Our signature treatment - this traditional cleansing experience consists of a black olive soap wash and loofah body scrub in a private scrub room, followed by a rhassoul clay body mask and rose water rinse to conclude.

AROMATHERAPY FACIALS

Through a combination of expertly blended essential oils and active botanicals, the Aromatherapy Associates range of specialist products provides an innovative solution to restore wellbeing and vitality. The healing properties and therapeutic values of plants result in radiant and healthy skin that can be both seen and felt.

ESSENTIAL ROSE FACIAL

60 minutes

Luxurious rose oils help condition the skin and deeply nourish it. The result is a smooth, radiant complexion and a relaxed state of mind.

DEEP CLEANSE FACIAL

60 minutes

An intensive treatment that incorporates steaming, extraction and hot towel compresses, alongside a facial massage and a freshwater mud mask, leaving the skin super clean and fresh.

SOOTHING FACIAL

60 minutes

A truly soothing and calming facial suitable for irritated or inflamed skin, helping to reduce redness, and nourish, sooth and restore the skin's natural radiance.

ADVANCED BEAUTY

Your skin is prepared through a deep pore cleansing prior to the application of pioneering treatment masks. Moisture levels are boosted through the 70% natural soluble collagens, which intensely hydrate and restore the skin.

PURE OXYGEN

80 minutes

This is a highly rejuvenating facial that is designed to deliver a boost to your skin's energy and vitality. The ingredients are channelled more effectively and intensively into the skin through the use of !QMS' advanced beauty cosmetic customised Oxygen Concentrator. The improved oxygen supply encourages circulation and stimulates a regenerative process, leaving you with immediately enhanced skin that feels firm, smooth and radiant.

SKIN CELL RENEWAL

80 minutes

An exceptionally restorative facial developed to support your skin's stem cells, enhance the stimulation of new skin cells and improve your overall skin metabolism. Featuring the revolutionary moisturiser, Ion Skin Equalizer, this high-impact treatment will help to repair your extracellular matrix, reduce pigmentation and leave your skin visibly smoother.

MED TREATMENT

50 minutes

Designed for problematic skin, this treatment clears impurities, calms inflammations and regenerates the basic functions of the skin, which are important in improving the overall wellness of your skin.

DEEP CLEANSING

50 minutes

An intensely cleansing facial designed to give the skin a complete detox. Pores are deeply cleaned through a pre-application of !QMS' revolutionary exfoliating products, creating the ideal base for optimum absorption of the soothing and moisturising algae mask.
