Zen the Spa at Rotana

Our Zen concept derives from Holistic Asian Philosophies with an added Contemporary twist. Zen is "uncomplicated" and "uncluttered". The aim of the Spa Team is to provide each guest with "me time" to simply rebalance and rejuvenate-allowing them the opportunity to be transported away from often complicated, busy lives to a retreat of tranquility and calm. This is reflected through the finishes and décor within the Spa.

A dedicated Spa Team of therapists with high level of competencies and skills serve a wide treatment menu, using prime quality selected product line to suit all guests. This varied selection of treatments being available, includes relaxation, body, facial, hand, foot and massages. The team consults the guest, providing the most suitable treatments for each individual and gradually educating the guest on how to achieve a balance and well- being which will be reflected in both their inner and outer self.
